

How Is It With Your Soul?

God has made us physical creatures. That's part of who we are is very significant. However, that's not all that makes up human beings. We also have a soul. This is part of what it means for human beings to be made in the image of God Himself!

How is it with your soul? Physically, you may be doing great—have a healthy body, eat good food, and enjoy physical comforts and pleasures. However, many a person has had it well in the physical realm, while being at the same time, in terrible shape in their soul.

The only way for the soul to be in good condition is through a relationship and fellowship with Jesus Christ. He is the only one who can cleanse the soul and make it healthy. Seek Him. Feed your soul with His healthy, solid Word. Ask for His grace and power to abide continually with you. Through Christ alone can it be well with our souls.

Elder Timothy Guess
